Journal of Hydrology 191 (1997) 375–376

Journal of Hydrology

Contents

Research Papers

Climatic variability in humid Africa along the Gulf of Guinea. Part I: detailed analysis of the phenomenon in Côte d'Ivoire
E. Servat, J.E. Paturel, H. Lubès, B. Kouamé, M. Ouedraogo and J.M. Masson 1

Climatic variability in humid Africa along the Gulf of Guinea. Part II: an integrated regional approach
J.E. Paturel, E. Servat, B. Kouamé, H. Lubès, M. Ouedraogo and J.M. Masson 16

Hydrologic and thermal modeling of an active volcano: the Piton de la Fournaise, Reunion
S. Violette, E. Ledoux, P. Goblet and J.-P. Carbonnel 37

Evaluation of a distributed parameter ecohydrological model (TOPOG_IRM) on a small cropping rotation catchment
W.R. Dawes, L. Zhang, T.J. Hatton, P.H. Reece, G.T.H. Beale and I. Packer 64

Improving single-variable and multivariable techniques for estimating missing hydrological data
S. Bennis, F. Berrada and N. Kang 87

Numerical solution of transport equation for applications in environmental hydraulics and hydrology
M. Rashidul Islam and M. Hanif Chaudhry 106

Groundwater flow and dissolved carbon movement in a boreal peatland
J.M. Waddington and N.T. Roulet 122

Transmissivity and morphological features in a chalk aquifer: a geostatistical approach of their relationship
P. Bracq and F. Delay 139

The effect of randomized cloud seeding on runoff depth from a small watershed in central Israel
A. Ben-Zvi and A. Fanar 161

Physics of the spatially averaged snowmelt process
F.E. Horne and M. Levent Kavvas 179

Sensitivity of flood events to global climate change
D. Panagoulia and G. Dimou 208

Annual mesoscale study of water balance in a Great Basin heterogeneous desert valley
E. Malek, G.E. Bingham, D. Or and G. McCurdy 223

Recent advances in dating young groundwater: chlorofluorocarbons, $^{3}H/^{3}He$ and ^{85}Kr
P.G. Cook and D.K. Solomon 245

Dynamics of water-table fluctuations in an upland between two prairie-pothole wetlands in North Dakota
D.O. Rosenberry and T.C. Winter 266

The influence of artificial macropores on water and solute transport in laboratory soil columns
J.M. Buttle and D.G. Leigh 290

Determination of flow characteristics in the aquifer of the Northwestern Peninsula of Yucatan, Mexico
B. Steinich and L.E. Marín 315

Evaluation of the storage function model parameter characteristics
H. Sugiyama, M. Kadoya, A. Nagai and K. Lansey 332

Degradation downstream from a sluice gate; variation of bed and sediment characteristics with time and discharge
M.S. Khaleel and K.I. Othman 349

Book Reviews

The Freshwater Imperative, by R.J. Naiman, J.J. Magnuson, D.M. McKnight and J.A. Stanford (Editors) — C. Neal 364

Changing River Channels, by A. Gurnell and G. Petts (Editors) — D. Knighton 365
River, Coastal and Shoreline Protection, by C.R. Thorne, S.R. Abt, F.B.J. Barends, S.T. Maynord and K.W. Pilarczyk — E.M. Valentine 367
Hydrology and Hydrochemistry of British Wetlands, by J. Hughes and L. Heathwaite (Editors) — M.D. Newson 368
Hydraulic Structures, by Prof. P. Novak, A.I.B. Moffatt, C. Nalluri and R. Narayan — F.M. Law 370

Addendum 371

Corrigendum 372
